

Ben Hooper

Geologist Consultant

Ben Hooper studied geology at the University of Texas (BS 1980) and spent the first thirteen years of his career with Gulf Oil and Chevron USA in Houston and Kilgore, Texas.

He has subsequently been associated with Josey Oil Company, Joy Resources, John H. Young, and as a consultant for several members of the Josey family. His primary expertise is in the area of prospect generation, development geology, and seismic interpretation on the onshore Texas Gulf Coast.
